PETITION RELATING TO THE FILING DATE OF A PATENT APPLICATION
UNDER 37 C.F.R. §1.53 (e)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicants submit this Petition Relating to the Filing Date of a Patent Application under 37 C.F.R. §1.53(e) in response to the Notice of Incomplete Nonprovisional Application mailed July 21, 2004. The Notice states that the above-identified application was deposited without drawings. Applicants submit that although the instant specification describes a Figure 1 (see pages 4 and 477 of the instant application), Figure 1 is not necessary for the understanding of the instant invention. All the information necessary for understanding the instant invention is contained within the specification as filed. Therefore, Applicants respectfully request that the instant application be accorded the filing date of April 7, 2004 which is the date the materials were deposited.

However, since the Figure 1 was inadvertently omitted from the filing of the instant application but was timely filed with the provisional application from which the instant application claims priority, namely U.S. Provisional Application Serial No. 60/462,047, Applicants respectfully request that the Figure 1 from the priority Provisional Application Serial No. 60/462,047 be incorporated into the specification of the instant application.

U.S. Serial No. 10/821,234

1

Since the instant application is a continuation of U.S. Provisional Application Serial No. 60/462,047, the entire disclosure of the prior provisional application is considered to be a part of the disclosure of the instant application and can be relied upon when a portion has been inadvertently omitted from the submitted application.

Applicants authorize the Commissioner to charge the Nuvelo, Inc. deposit account number 50-1169 for the petition fee of US \$130.00 under 37 C.F.R. §1.17. The Commissioner is also authorized to charge any fees, or credit any overpayments, to the Nuvelo, Inc. deposit account number 50-1169.

Respectfully submitted,

September 21, 2004
